Fixings

Nails

The humble nail is a crucial part of the roof and you will find all types and sizes at our branches. The following chart shows the nails that manufacturers recommend when fitting some of the most common roof tiles.

Plain Head Round Wire Nail

Application: A general purpose nail suitable for a variety of applications. Most often used to secure battens, floor and roof joists and partitions.

Finishes: Bright or Galvanised.

Clout Nail

Application: Fixing roofing slates and tiles to battens. The exact finish, gauge and length depends upon application and type of roof tile.

Finishes: Galvanised Steel, Aluminium or Copper.

Extra Large Clout Nail

Application: Fixing roofing slates and tiles to battens, roofing felt and asphalt shingles. The exact finish, gauge and length depends upon application and type of roof tile.

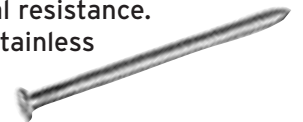

Finishes: Galvanised Steel, Aluminium and Copper.

Annular Ring Shank Nail

Application: Used in the same applications as Round Wire Nails and Clout Nails. It has a thread on the shank for extra withdrawal resistance.

Finishes: Bright, Sherardised & Stainless Steel, Aluminium, Copper, ZYP, Silicone Bronze.

Tile Peg

Application: Used to hang peg tiles on to battens. Available in 30 mm and 38 mm lengths.

Finishes: Aluminium and Copper.

Springhead Roofing Nail

Application: Used for securing galvanised corrugated steel sheeting. The convex washer covers the hole made by the nail.

Finish: Galvanised Steel.

Slab Nail

Application: Used in panel fixing and is especially suited for the fastening of insulation and sound proofing materials to timber or plaster walls.

Finish: Galvanised Steel.

Drive Screw

Application: For fixing steel corrugated sheet to wood, and are often used with black plastic (Spat or Dowty) washers to provide a watertight seal.

Finish: Galvanised Steel.

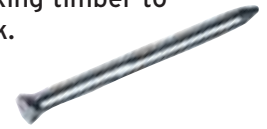

Cut Clasp Nail

Application: Used for fixing timber or metal strapping to brick or block work.
Finish: Bright Steel

Masonry Nail

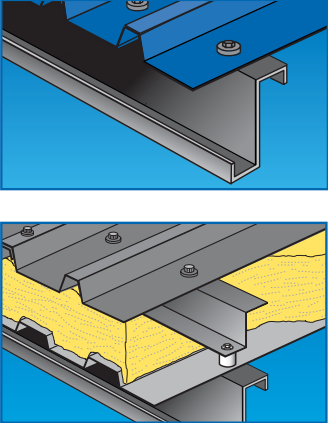

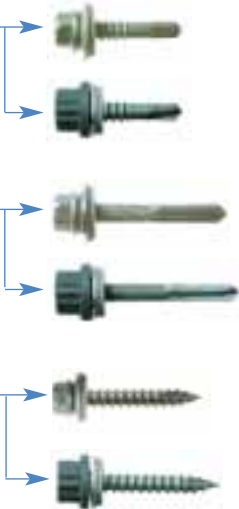

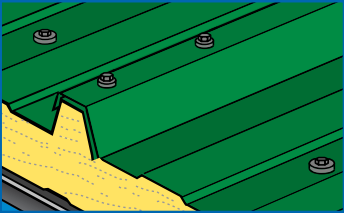

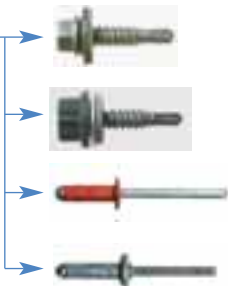

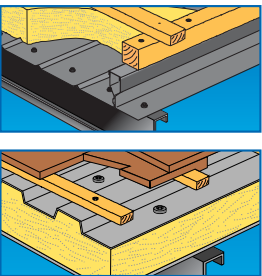

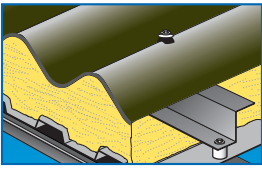

Application: A hardened nail for fixing timber to stone, concrete, brick or blockwork.
Finish: Bright Zinc Plated Steel.

Flat Roofing Fasteners and Accessories

BS-5.5 Fasteners

For securing insulation & membrane to steel & timber roof decks. To be used with appropriate pressure plate. Steel deck: 0.7 to 2.0mm thick. Fasteners must penetrate underside of deck by a minimum of 15mm.

Ply/OSB: Minimum 18mm thick.

Fasteners must penetrate underside of deck by a minimum of 12mm.

Drive Type: No.3 Phillips

Various lengths available

TS-PA-System

A pre-assembled combination of a 40mm diameter pressure plate & a 35mm long fastener. Designed for securing membrane to ply or OSB roof decks. A simple setting tool (MV-28) can be used to drive this fastener.

Ply/OSB minimum 18mm thick fasteners must penetrate underside of roof deck by a minimum of 12mm.

Drive Type: No.2 Phillips

SP-70-D4 Pressure Plates

A load bearing washer designed for securing insulation boards. Can be used in conjunction with the BS-5.5 fasteners.

MV-28 Setting Tool

A simple tool to aid installation of the TS-PA fastener. Allows the operative to stand whilst driving the fixing for speed and ease of installation.

SP-8240-S3 Pressure Plates

A load bearing washer designed for securing the membrane. Can be used in conjunction with the BS-5.5 fasteners.

RS-SS Stainless Steel Fastener

A load bearing washer designed for securing membrane. Can be used in conjunction with the BS-5.5 fasteners.

Drive Type: No.3 Phillips

Various lengths available

Stainless Steel Banding

A fast & versatile clamping system for a wide range of applications, such as retaining roof membranes around a penetration.

Contents :- 5m x 8mm of banding
25ng clamps.

Sip Fasteners

With its large washer type head, this product has been designed for fastening ply faced insulation panels to timber joists. Timber joists :- 35mm minimum embedment.

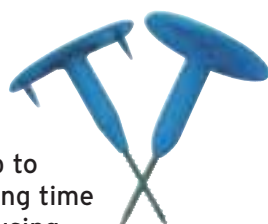

Drive Type: No.3 Square

Various lengths available

Iso-Tak

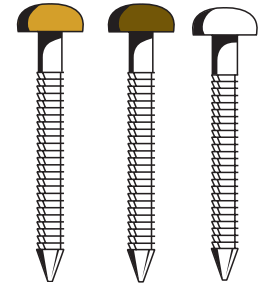

The Iso-Tak range consists of tube washers, pressure plates and fasteners for attaching insulation and membranes to steel, aluminium, concrete and timber decks. Insulation thicknesses of up to 555mm can be accommodated. Fixing time can be reduced by 30-40% when using the specialist Iso-Tak tool range.

Roofline Fixings

These fasteners are specifically designed to unobtrusively fix Fascia and Soffit Boards.

- Manufactured in A4 Stainless Steel
- Colour Stable
- UV Stable
- High Impact Strength

Sealants and Solutions

We stock silicones and sealants to cover most roofing and building requirements.

Product	Description	Size	Coverage	Colours	
Laybond	Feltfix	Cold applied, solvent borne bituminous adhesive for bonding roofing felt	25 litre	1.6m ² per litre	N/A
		5 litre			
		2.5 litre			
		1 litre			
	Gripfill	One part, gap filling adhesive, Excellent bonding strength in most applications	350ml	12m at a 6mm bead	White
		310ml			
Siroflex	LMA 2001	General purpose silicone for a variety of building purposes	310ml		White
					Clear
	LMN 2001	General purpose silicone for a variety of building purposes	310ml		White
					Clear
				Brown	
				Black	
				Grey	
				Oak/Caramel	
	SX	Lead Sheet Sealant	310ml		Grey

Chemicals

We stock a number of different dyes and additives to change the colour and consistency of mortar.

Product	Description	Size	Coverage	Colours	
Sovereign Chemicals	Mortex Redtex Browntex	A black liquid pigment additive for colouring mortar or concrete. It is especially recommended for garage forecourts, filling stations and house drives where oil spillage is likely.	5 litre	Approx. 1 part to 9 parts gauging water.	Black
					Red
					Brown
		Admix	A resin based agent that improves the workability of mortar without the addition of lime and affords some protection against night frost. Admix can be added either direct to the mix or to the gauging water.	5 litre	0.125- 0.250L per 50kg bag cement. One part Admix to 40 parts water when mixing.
	PVA Adhesive	Sovereign PVA Adhesive is a synthetic resin adhesive suitable for bonding most materials with the exception of plastic and rubber. It can be used for a variety of building applications, including plaster bonding, dustproofing and screeding etc.	5kg		

Hand Tools

A vast range of Hand Tools are available. Below you'll find some of the most common items, but this list is not exhaustive.
